1. The amendment filed on March 29, 2004 has been entered. Accordingly, claims 1, 18 and 21 have been amended.

Allowable Subject Matter

2. Claims 1-25 are allowed.

The prior art of record, Benjamin (US Patent No. 1,880,399), Burdick (US Patent No. 1,430,354) and McFaddin (US Patent No. 1,267,882), does not show or suggest the applicant's invention as claimed. Specifically, the prior art of record does not disclose a light fixture combining:

- a collar coupled to a cowl completely within the cavity formed by the inner surface of the collar and the cowl as recited in claims 1, 18 and 21; and
- the cavity being sealed against external elements as recited in claims 1, 18 and 21; and
- the flared lowered portion of the cowl, the light emitting element and the lowered portion of the collar being exposed to external elements as recited in claims 1, 18 and 21.

The above-indicated combination, including a collar making an externally sealed cavity defined by the inner surface of the collar and the cowl, makes this invention unique.

Art Unit: 2875

Benjamin ('399) discloses a light fixture including a collar making an externally sealed cavity. Further, Benjamin ('399) teaches a need for covering the flared lowered portion of the cowl, the light emitting element and the lowered portion of the collar being covered with a lens cover. Thus, Benjamin ('399) does not teach the flared lowered portion of the cowl, the light emitting element and the lowered portion of the collar open to external elements as claimed by the applicant.

Burdick ('354) and McFaddin ('882) each discloses a light fixture having a cavity formed by the inner surface of the collar and the cowl. However, the cavity disclosed by each of Burdick ('354) and McFaddin ('882) is kept perforated for heat release. Thus, each of Burdick ('354) and McFaddin ('882) does not teach the flared lowered portion of the cowl, the light emitting element and the lowered portion of the collar open to external elements as claimed by the applicant.

Therefore, claims 1, 18 and 21 are allowed over prior art.

Claims 2-17 are necessarily allowed because of their dependency on the allowed base Claim 1.

Claims 19 and 20 are necessarily allowed because of their dependency on the allowed base Claim 18.

Claims 21-25 are necessarily allowed because of their dependency on the allowed base Claim 21.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
